PRIVLAČNOST LEPOTE ZA USTVARJALNO MLADOST

Mladost piše pisane zgodbe. V rosnih letih malčki, ki jim je igra vse, potrebujejo varno zavetje in ljubeč nadzor staršev. Šolska leta prinašajo s seboj nove obveznosti, ki spodbujajo vedoželjnost in so razburljive, zato je intimno okolje lastne sobe, ki smo jo nadgradili z novimi elementi, zelo pomembno. Mladostnik v zgodbo prinaša nov, povsem svoj svet. Svoje okolje želi preoblikovati po svoje, da mu pomaga odraščati in oblikovati svojo osebnost. Magnet privlači vse starostne skupine, za vsako ima odgovor tako s širino različnih elementov kot z barvami in detajli. Vsak značaj lahko najde svoj izraz po svoji meri in v svojem tempu.

PRIVLAČNOST LJEPOTE ZA KREATIVNU MLADOST

Mladost piše živopisne priče. U ranim godinama djetinjstva mališanima kojima je igra sve potrebno je sigurno utočište i roditeljski nadzor pun ljubavi. Školske godine sa sobom donose nove obveze koje potiču znatiželju i uzbudljive su, stoga je vrlo važno intimno okruženje vlastite sobe koju smo nadogradili novim elementima. Tinejdžer u priču donosi novi, potpuno svoj svijet. Svoju okolinu želi preoblikovati na svoj način kako bi mu pomogla da odraste i oblikuje svoju osobnost. Magnet privlači sve dobne skupine, za svaku ima odgovor bilo širinom različitih elemenata ili bojama i detaljima. Svaki karakter može naći svoj izraz po svojem ukusu i u svojem tempu.

THE ATTRACTIVENESS OF BEAUTY FOR CREATIVE YOUTH

Young people write stories full of colour. During the first years, when play is the only care in the world, toddlers need safe shelter and loving parental supervision. The school years bring new obligations that stimulate curiosity and excitement, therefore the intimate environment of our own room, upgraded with new elements, is very important. The adolescent instills a new and completely different world into this story. They want to transform their environment in their own way to help them grow and shape their personality. The magnet attracts all age groups. With its breadth of different elements, colours and details, it provides an answer for each of them. Each character can find their expression however they like and at their own pace.

PROTECT YOU TECHNOLOGY

ZAŠTITA OD ZRAČENJA CIJELU NOĆ – ZA NESMETANU REGENERACIJU MLADIH MOZGOVA.

ALL-NIGHT RADIATION PROTECTION – FOR THE UNINTERRUPTED REGENERATION OF YOUNG BRAINS

Spanje je nujno potrebno za nemoteno telesno in duševno delovanje. Med spanjem poteka regeneracija celotnega organizma, še posebej pa je pomembna regeneracija možganov. Sevanje mobilnih naprav na ta proces vpliva negativno, zato ga želimo čim bolj omejiti. Tkanina, ki jo v vgrajujemo v določene elemente, 99-odstotno prepreči prehod sevanja. Elementi so zasnovani tako, da smo preko mobilne naprave še vedno dosegljivi, sevanje pa se zmanjša na najmanjšo možno mero.

Spavanje je prijeko potrebno za nesmetano tjelesno i duševno funkcioniranje. Tijekom spavanja događa se regeneracija cijelog organizma, a posebno je važna regeneracija mozga. Zračenje mobilnih telefona na taj proces utječe negativno, zato ga želimo što više ograničiti. Tkanina koju ugrađujemo u određene elemente 99 % sprječava prolaz zračenju. Elementi su osmišljeni tako da smo putem mobilnog uređaja još uvijek dostupni, a zračenje se smanjuje na najmanju moguću mjeru.

Sleep is essential for smooth physical and mental functioning. During sleep, the regeneration of the entire organism takes place, with the regeneration of the brain being especially important. The radiation from mobile devices negatively impacts this process, so we want to limit it as much as possible. The fabric, which is built into certain elements, provides 99% protection against the passage of radiation. The elements are designed so that we can still be reached via a mobile device, while radiation is reduced to a minimum.
