27 LIVING **SELECTION**

PRODUCT LINES – LIVING SELECTION

With its five product lines – Air, Avala, Pan, Case and Bari – the Living Selection combines timeless elegance, clear functionality and versatile design, ranging from modern lightness to the warm, sophisticated charm of country style. The result is a diverse selection of high-quality furniture that blends harmoniously into a wide variety of living environments.

07 **AIR** Timeless, clean, sophisticated – the Air glass cabinets represent modern elegance at the highest level.

19 **AVALA** This elegant product line includes wall-mounted and classic base cabinets, display cabinets, and lowboards, which together create a stylish overall look.

39 **PAN** Ambia glass cabinets combine time-tested practicality with an exciting approach to design.

51 **CASE** At the heart of the Case product line is the shelf insert, which is sure to impress. Not just with its clean and appealing design, but with its versatility, too.

63 **BARI** Natural, charming and full of warmth, the furniture in this product line brings modern country style into your home with effortless elegance.

OUR FURNITURE QUALITY

The material portfolio of the product lines offers a plethora of quality features. For instance fronts with a pleasant feel, robust and long-lived carcases made of high-quality materials and modular planning options.

10 YEAR GOODWILL

TWICE THE COMMITMENT

Your trust is worth a lot to us: To further improve the support we offer you, we have now decided to increase the period for which we offer goodwill-based services from 5 to 10 years. This comprehensive service applies to all of the kitchen, bathroom and living room furniture we produce.

MADE IN GERMANY

MADE IN GERMANY

Select materials, excellent workmanship, perfection down to the smallest detail: Our furniture is designed and produced according to stringent quality criteria. This comprehensive service applies to all carcase furniture in the kitchen, bathroom, and living room sectors.

SENSYS HINGES

All units are equipped with the latest hinge technology. Doors close evenly and silently thanks to the innovative and durable Silent System cushioning technology.

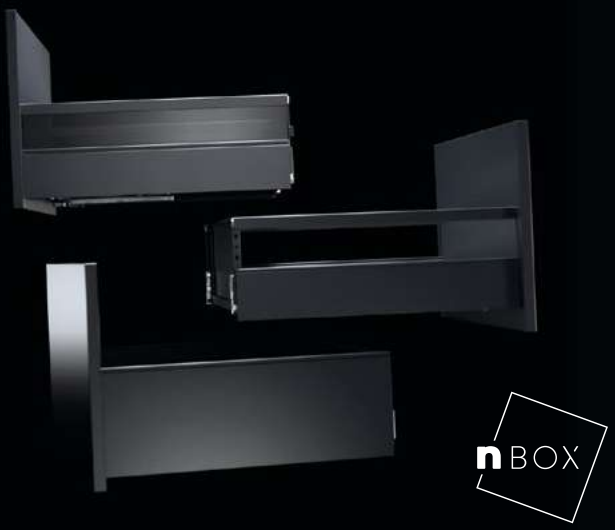

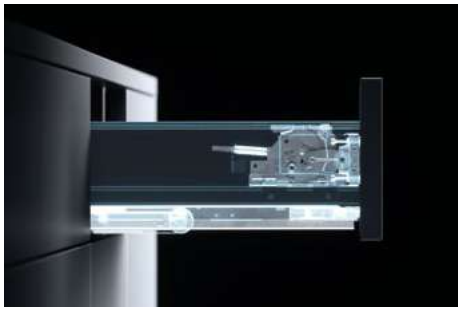

OUR PRICING STRUCTURE

To make pricing quicker and easier, the suggested combinations have been calculated based on price group 3. This price group includes the ranges, which are particularly relevant for living areas.
The Bari suggested combinations are an exception: this range is calculated based on price group 5.

THE EXCLUSIVE DRAWER SYSTEM

The innovative nBOX drawer system sets standards in interior design and offers premium design and premium technology as a serial standard at attractive prices.

MORE DESIGN.

The nBOX system in a timeless slate grey adds a touch of elegance to the entire interior. With a frame of just 10.7 mm, the nBOX combines a slim, modern look with great stability. The innovative underframe rail is invisible and the nBOX is easy to adjust, guaranteeing a precise and even gap pattern.

MORE COMFORT.

The handleless furniture is equipped with a convenient cushioned push-to-open function for drawers, pull-outs and doors. The nBOX drawer system combines a high load-bearing capacity with smooth, gentle movement and great side stability. Depending on the dimensions selected, the total load-bearing capacity is between 40 and 70 kg.

MORE CHOICES.

As an option, the nBOX is available with a glass side or as a closed pull-out box. Design profiles and design covers offer the option of customising the nBOX design and adding highlights of colour. Attaching and replacing covers and profiles is simple and requires no tools.

This sales document does not contain prices, but additive points without a conversion factor.
Specialist retailers use a conversion factor to determine the final prices.
Installation costs are not included in the prices.

LIVING CONCEPT **AIR**

Design in its purest form.
Timeless, clean, sophisticated – the Air glass cabinets represent modern elegance at the highest level. Aluminium frames, integrated handle profiles and invisible hinges created a design that is both minimalist and technically sophisticated. The unique combination of glass, a delicate frame contour and optional LED lighting makes the glass cabinet a highlight in any space – be it a kitchen, living room or bathroom.

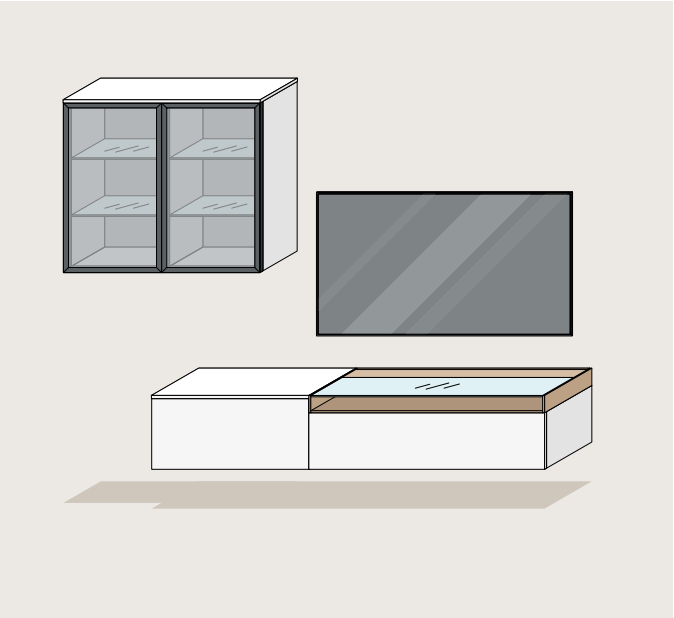

Customisable highlights. Simple to combine.
To help you configure your new favourite glass cabinet, we offer a selection of modern proposed combinations. Eye-catcher back panels in different décors open up opportunities for creativity – from rich contrasts to colour-coordinated balance. Optional LED interior lights are perfect for presenting your favourite items in style. All this allows you to precisely shape the design of your vision – with ease and elegance.

SUGGESTED COMBINATIONS

LIVING CONCEPT **AVALA**

Warm Shades.
Experience the natural flair of Avala. This elegant product line includes wall-mounted and classic base cabinets, display cabinets, and lowboards, which together create a stylish overall look. The Native Oak decor made from real wood veneer gives Avala its characteristic charm. Handleless fronts emphasize the timeless design and offer diverse design possibilities for your living space.

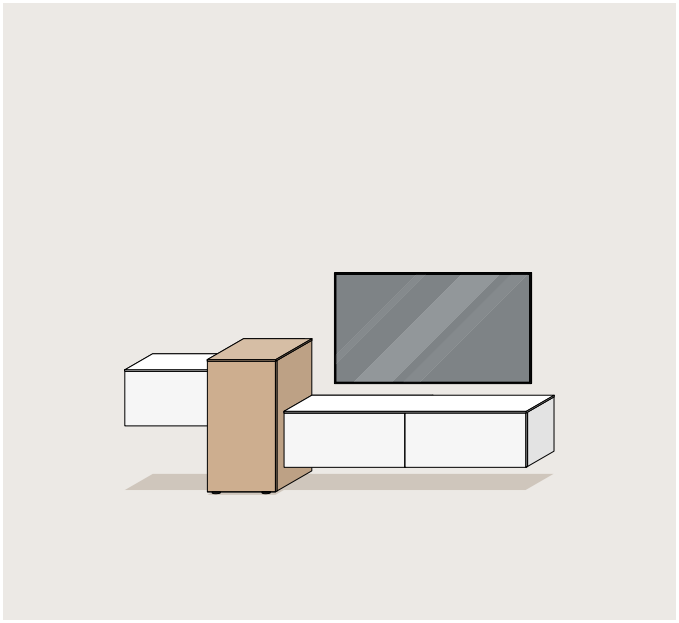

Exciting Combinations. Flexibly designed.
For an individually and functionally designed living space, the Avala product line offers freely selectable cover panels regardless of the body colors, as well as flexibly usable console panels, which highlight each set in a modern way – ideal for open space design. The furniture is modularly plannable and combinable with other single types.

Alvar Aalto

PAN LIVING CONCEPT

Asymmetrical. Expressive. Special.
Ambia glass cabinets combine time-tested practicality with an exciting approach to design. Asymmetrical glass cut-outs break up the classic unit image and create stylish highlights. Combined with eye-catcher back panels or freely planned wall panels, this design creates a living room ambiance with personality. Optional mood lighting makes glass surfaces and contents look particularly elegant – an eye-catcher, day and night.

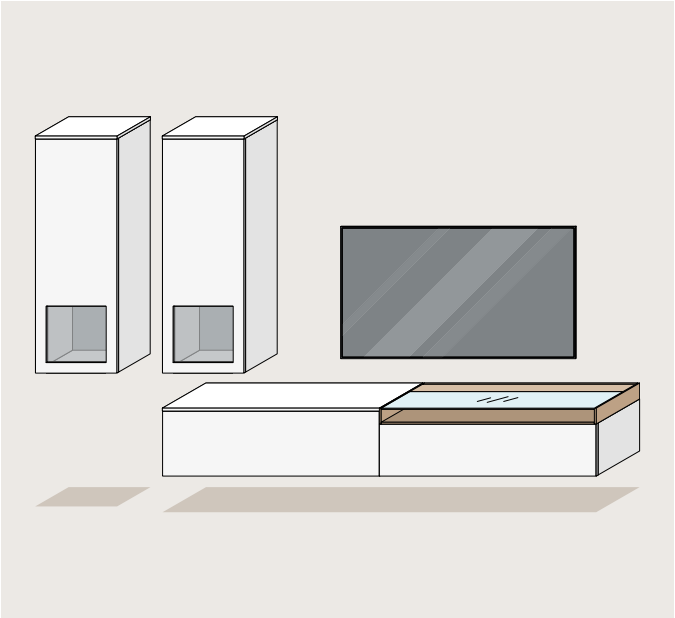

Design your ambiance. Stage your highlights.
Your favourite pieces will look twice as valuable behind glass: securely protected yet visually highlighted. The lighting inside the glass cabinets and flap door units creates a balanced overall look and puts the decoration front and centre. The design looks particularly harmonious when the back panel and wall panel are colour-coordinated – from warm wood decors to mirrors for additional depth in the room. The back panel concept opens up a variety of design options for individual looks, from urban to cosy.

LIVING CONCEPT **CASE**

Harmonious versatility

Clean design, clever functions. At the heart of the Case product line is the shelf insert, which is sure to impress. Not just with its clean and appealing design, but with its versatility, too. It's the perfect place to showcase your favourite decorative pieces, books or memorabilia.
The warm wood décors and the elegant concrete décor give a modern natural charm to any interior design and create a pleasant ambiance.

New planning options

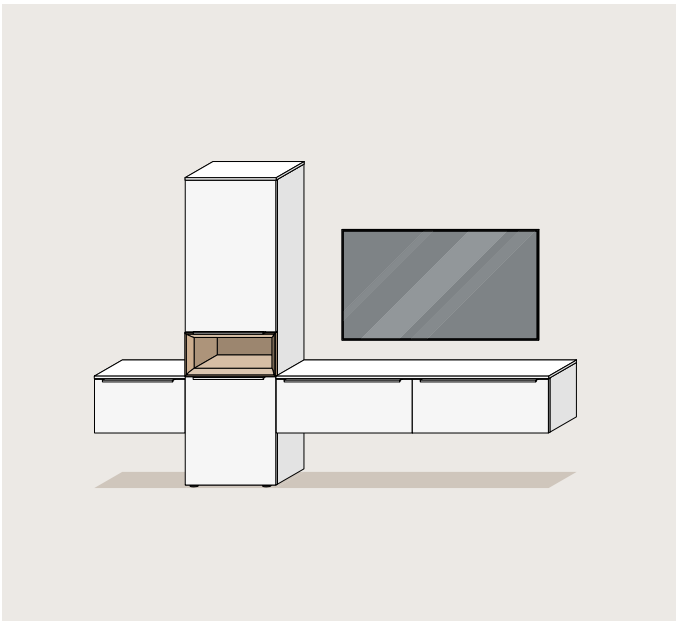

The Case shelf insert is not just perfect for living areas, but is equally suited for kitchen and bathroom furniture. That makes it a great choice for a consistent style across multiple rooms.

COMBINATION SUGGESTIONS

Matching set combinations for atmospheric room planning – Discover the benefits of our Case product line.

LIVING CONCEPT **BARI**

Country style with character.
Natural, charming and full of warmth – the furniture in this product line brings modern country style into your home with effortless elegance. Harmonious details, authentic wood textures and a wide range of finishes create living spaces with personality and a warm, inviting atmosphere. From light and welcoming to distinctive and elegant, the versatile design options give you the freedom to create an interior that perfectly reflects your individual style.

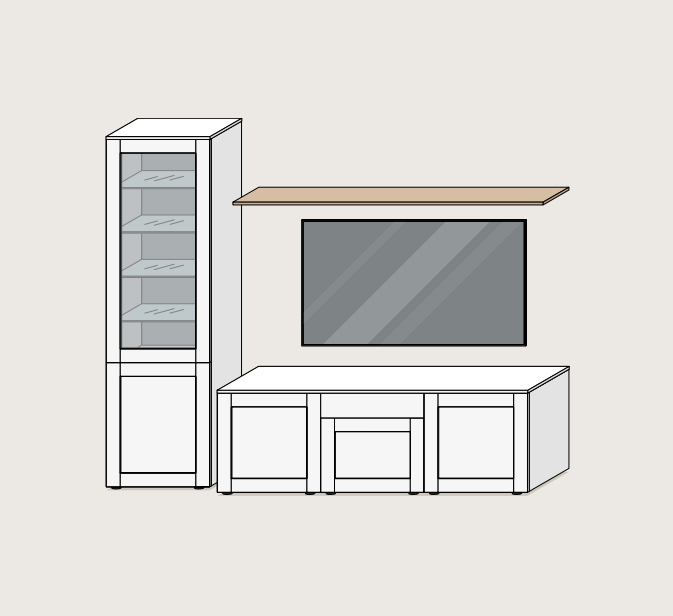

Perfectly coordinated. Easy to customise.
To make planning your new living-room furniture quick and convenient, we have already preconfigured the key dimensions and combinations for you. Simply choose your preferred finish and matching details such as handles, accent back panels or niche cladding – and create your own personal country-style look exactly the way you want it.
